

Boardmaker® Plus v.6

Adapt your curriculum to the needs of your students

Boardmaker Plus! v.6 is the preferred solution of teachers, speech language pathologists and parents for creating and adapting on-screen and printed symbol-based learning activities for students with learning challenges. Ideal for any content area or learning goal, Boardmaker Plus! unlocks the door to learning success by motivating, challenging and exciting students with speech, sound, animation and video.

Transform classroom learning with the “student experience” of Boardmaker Plus!

Every teacher knows that maximizing the focused time that students spend on a task is the way to get the most out of the instructional time available. For that to happen, the activity needs to be engaging, challenging, supportive and also rewarding. Boardmaker Plus! gives you the tools to make the student experience as rich and effective as possible.

- Learners hear auditory feedback through digitized or synthesized speech.
- Learners interact with content using fine motor, gross motor or switch-scanning.
- Readers find support in symbol/word pairs.
- Students demonstrate understanding using picture symbol supports.
- Families appreciate culture-specific symbols with country-specific libraries of symbols.
- Children identify with personal images used in materials like:
 - Familiar images from the Internet
 - Personal photos from your digital camera
 - Videos from your video camera

Create and adapt classroom instruction with the “teacher features” of Boardmaker Plus!

Boardmaker Plus! unlocks the door to learning success by motivating, challenging and exciting students. It makes it easy to create new symbol-based activities or customize existing ones. Use Boardmaker Plus! to build new skills and strengthening current ones, creating support materials like:

- Talking books
- Activity boards
- Positive behavior supports
- Schedules
- Writing exercises
- Practice lessons and more

The easy-to-use features of Boardmaker Plus! let you adapt your materials to suit every student’s individual learning skills and access needs while saving you time. Some of the most popular features include:

- **Symbolate:** Allows teachers to quickly symbol-adapt text just by typing
- **Moveable Buttons:** Make it easy to create dynamic activities like counting, matching, sequencing or sorting
- **Sound Library:** 150 fun sounds enhance lessons and support learning
- **Speech Output:** A critical component for quickly adapting materials of all types
- **Page Linking:** Key to making lessons dynamic, varied and rich with content
- **Drag-and-Drop:** Move video, audio, or images directly from a web browser into a board

Three ways to get started creating adapted materials

Create your own

Boardmaker Plus! has all the same powerful features as Boardmaker so you can use interactive activities on your computer and print your boards, too!

Edit an existing activity

There is often no need to start from scratch. The resources available to Boardmaker Plus! users is truly amazing. You can:

- Edit one of the 600 sample boards that ship with the software
- Open up one of the 94 interactive template and fill in your own content
- Browse or search the tens of thousands of free public boards on **AdaptedLearning.com**
- Purchase one of 60 different Add-on products designed by professionals in the field

With any of these options, you can get started in minutes and make the changes you need to help your student succeed.

Ready-to-use

The new Curriculum Companion series of products has taken content creation with Boardmaker Plus! to a new level. The Curriculum Companions are already filled with rich, topic-specific content including photos, sounds, vocabulary, symbols and definitions. The content is aligned to educational standards already. What’s more, all of the activities have options that allow you to change the content and layout without ever going into Design Mode. So, even beginning Boardmaker Plus! users can adapt these materials to their students needs quickly and without knowing how to edit a Boardmaker board.

Curriculum Companion activities – ready to use or to adapt

Curriculum Companions are adapted activities designed to enhance your curriculum, helping students strengthen their reading and writing skills with exciting and engaging science and social studies activities. All Curriculum Companions have identical structures, so students can spend time learning new concepts within a fun and familiar context of activities. Curriculum Companions are appropriate for students of all ages and abilities with academic goals in the K-2 grade-level. Students can access their Curriculum Companion activities with Boardmaker Plus! v.6, Boardmaker Plus Player, or Boardmaker with Speaking Dynamically Pro v.6.

Choose among our eight different Curriculum Companions to build your library. Topics include:

- Amazing Animals
- What's the Weather?
- Changing Seasons
- Nature's Neighborhoods
- From Here to There
- It's Alive
- Community Faces and Places
- All About Plants

More Curriculum Companions are coming soon! Check www.mayer-johnson.com for more product details and the complete list of Curriculum Companions currently available.

AdaptedLearning.com – a Great Source for Pre-Made Content

AdaptedLearning.com is a free online community where educators, speech-language pathologists and other professionals can find and share interactive education materials that have been created with

Boardmaker Software Family Products. These interactive boards can also be shared with your entire classroom using Boardmaker Plus Player.

Work from anywhere with AdaptedLearning Print Editor

So many teachers, therapists, and others that support students with special needs, are constantly on the go. They work from different locations, but they always need their tools with them. That is why we now offer the AdaptedLearning Print Editor. This web-based subscription service works as a companion to your Boardmaker

software. With a Print Editor subscription, you can log into your **AdaptedLearning.com** account from any computer (Windows or Mac) and open, edit, and print your Boardmaker boards. Visit www.adaptedlearning.com to learn more about the Print Editor subscription.
