

Boardmaker® v.6

Create amazing symbol-based communication and educational materials

Boardmaker is the preferred solution among educators for creating printed symbol-based communication and educational materials. A drawing program combined with a graphics database, Boardmaker features more than 4,500 Picture Communication Symbols™ (PCS) in 44 languages, in both color and black-and-white. It also features over 150 templates to get you started, and helps you create your own symbol-based materials to reinforce your classroom activities.

Develop print materials based on Picture Communication Symbols

Picture Communication Symbols (PCS) effectively represent language for individuals of all ages and abilities. Designed to be simple, yet easily recognizable, teachers are using Boardmaker with PCS to enhance learning and communication for their special needs students. With Boardmaker and PCS, you can create an assortment of print materials to reinforce your classroom activities. Here are just a few ideas:

- Visual schedules and social skills stories for children with autism spectrum disorders
- Materials to reinforce common educational, behavioral, and functional living skills
- Books and symbol-supported literacy activities
- Communication boards and device overlays for non-verbal students
- Worksheets and activities for English language learners
- Song and story boards for preschoolers
- Articulation flashcards and fluency cue cards

Time-saving tools

Boardmaker v.6 has been developed and refined to reduce the time you spend adapting curriculum to meet the individual needs of unique learners. Try these time-saving tools with your classroom materials:

- **Symbolate:** Add symbols to text automatically as you type
- **Swap:** Reverse the appearance and actions between two or more buttons
- **Drag-and-Drop:** Import images from the Internet or from your digital camera
- **Shuffle:** Create new sorting activities or bingo boards
- **Line tool:** Create solid or dashed lines for worksheets or cutting activities
- **Free-form button tool:** Draw buttons that fit different images

Create and Adapt

Boardmaker gives you the freedom to create activities perfectly suited to the individual needs of your student or child, and includes over 150 templates to get you started. With a free membership to **AdaptedLearning.com**, our online board sharing community, you will find thousands of free boards created and shared by teachers and parents just like you. Use them as they are, or adapt them to suit your instructional needs.

- Add your own symbols, digital images or other graphics to Boardmaker's comprehensive symbol library.
- Combine elements of different PCS to create custom symbols.
- Create stories, language activities, games and more using a combination of PCS, photos or illustrations
- Customize buttons using dashed lines, varied thickness and colored button borders.
- Install optional country-specific symbols like holidays, food, currency and famous people.
- Draw freeform buttons of any shape and change button colors and borders.
- Print and cut materials with the help of dash lines that make cutting easy.

Work from anywhere with AdaptedLearning Print Editor

Many teachers, therapists and related professionals who support students with special needs are constantly on-the-go. They often work with different students in different locations, but they always need their tools at-hand. In response, we offer the AdaptedLearning Print Editor, a web-based subscription service that works as a

companion to your Boardmaker software. With a Print Editor subscription, you can log into your AdaptedLearning.com account from any computer (Windows or Mac) and open, edit and print your Boardmaker boards. Visit **www.adaptedlearning.com** to learn more about the Print Editor subscription.
